RESPONSE TO OFFICE ACTION

Assistant Commissioner for Patents
Washington, D.C. 20231
Box: RCE/Fee

Sir:

This response is in response to the Final Office Action dated April 10, 2001, and accompanies a Request for Continued Examination. The response is accompanied by a petition for a three month extension of time and the required fee, making this a timely response.

Please amend the above identified application as follows:

In the Claims:

35. An apparatus for the detection of target nucleic acids in a test sample, comprising:

- a) a test chamber comprising an array of electrodes, each electrode comprising a covalently attached single stranded nucleic acid and a passivation agent monolayer; and
- b) an AC/DC voltage source electrically connected to said test chamber.
